DETAILED ACTION

Allowable Subject Matter

1. Claim 3 is allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a method for fabricating a supporting assembly for a lock and actuating assembly of a motor vehicle, which includes inserting an actuating pin and first metal plate into a mold die where the actuating pin is separate and spaced from the first metal plate, molding a shell around the actuating pin and the plate to englobe the actuating pin in the shell, molding a seal gasket around the peripheral edge of the shell in the mold die, assembling mobile members to the lock pins and actuating members to the actuating pin, and placing a second metal plate against the seal gasket to close the housing formed by the shell between the first and second metal plates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
